Our Town

By J. B. White

Sunday, May 14th is Mothers Day. It's scope is the heart of the race. Her love is humanity's cradle. It is a day where there can be no divergence of thought. Memory's richest heritage streams a web of common impulse and all that is good in men rules for a day. Our hearts go back, a welcome pilgrimage, some to spots long since enfolding to rest the Angel of our better days, others to the privilege of hands soft with blessings. On hillsides in sunny lands, in cities and hamlets and on the prairies sweet with flowers, speed the hearts of men and women.

Mothers Day is the second Sunday in May. It is set aside for special observance of home and mother. The object is to recall memories of mothers who have gone, and to brighten the days of those who remain and to quicken appreciation for homes everywhere.

Services are held in churches and there are other places where suitable observances are made. The white Carnation, worn for mothers that are gone, is the emblem of purity, beauty and peace of mother love.

The idea of Mothers Day originated with Miss Anna Jarvis of Philadelphia. The day was celebrated in a number of American cities in 1910. On May 10, 1913 a resolution was passed in both houses of Congress commending observance of the day by Congress and the executive branches of the government and in the same year Nebraska made it state flag day in honor of the patriotism of Nebraska homes.

In 1914 Congress authorized the President of the United States to designate by annual proclamation the second Sunday in May as Mothers Day and to request the display of the American flag on Government buildings and private homes. The first national proclamation was issued by President Wilson on May 9, 1914.

The story is told of a dishonest worker. He and his family were roofless, whereupon a certain good Samaritan decided to surprise this man with a comfortable home. So, without telling his purpose, he hired the builder at a fair wage to build a house on a sunny hill, and then went on business to a far country.

The builder was left at work with no watchman but his own honor. "Ha!" he said to his heart, "I can cheat this man. I can skimp the material and skimp the work." So he went on spinning out the time, putting in poor service, poor nails, poor timbers.

When the good Samaritan returned the builder said, "That's a fine house I built you on the hill." "Good" was the reply, "go move your folks into it at once, for the house is yours. Here is the deed." The builder was thunderstruck. He realized that instead of cheating his friend, he had been industrially cheating himself when he did not know it was his own house he was building.

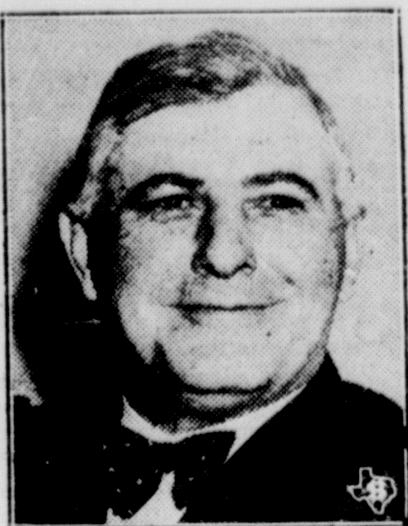

The man who makes his living in a community, who draws a salary or receives wages, or profits due to the existence of a community and sends his money out of town, and does not in turn patronize the community that is supporting him, is cheating the community and himself.

The only reason why his practice does not destroy his job and take away his salary and his wages, is that he is in the minority and there are more of his fellows loyal to the community in the matter of their patronage than there are who are not.

Take enough business out of any community and the number of wage earners there will be reduced.

If the practice is continued the man who thinks he is merely cheating someone else will wake up one day to find that he has destroyed the goose that layed the golden egg.

YOE DAY OBSERVED BY SCHOOLS TODAY

Yoe Day is being observed today by the local schools as a holiday.

The annual memorial exercises were held at the high school auditorium, Thursday morning, May 11, after which committees of various classes decorated the graves of Mr. and Mrs. Yoe with appropriate floral offerings.

Each of the classes of the high school staged some recreational feature as part of the day's celebration. The Freshmen had a picnic at Wayside; the Sophomores held a similar celebration at Buzzard Roost; the Juniors and Seniors spent the day in preparation for Senior Day on Friday.

Gohmert Celebrates 10th Anniversary In Business With a Sale

L. F. Gohmert's Variety Store celebrates with a 9c sale opening Friday morning ten years in business in Cameron.

An interesting advertisement appears in this issue announcing the sale to open Friday morning at 8 o'clock. The sale will end Saturday of next week.

Mr. Gohmert asks the people of this section to visit his store and join in the celebration which is featured by hundreds of bargains at the popular price of 9c. This sale will be of interest to buyers over a wide area.

that he has bitten the hand that fed him and has after all cheated himself.

An Indian once told me that the difference between the Indian and the white man is that the Indian skins his enemies while the white man skins his friends. It is like the fellow who was kept awake at night by what he thought was his neighbor's dog howling. He went out with a gun to put an end to the disturbance and found it was his own dog that was doing the howling. He then went back into the house, went to bed and slept soundly.

An exchange tells us of a town where business is so bad that even those who do not intend to pay have quit buying.

CAMERON COTTON BRINGS 8.68 HERE LAST TUESDAY

Substantial results from the Democratic administration and President Roosevelt's policy for national recovery were shown here Tuesday when 510 bales of cotton were sold at 8.68 per pound.

The cotton was bought by D. S. Slaughter and the total paid for the cotton was \$23,059.89.

A number of large spot buyers were bidding on the cotton. It was sold by Mr. Slaughter to Kreitmar & Hughes, an exporting firm of Dallas through S. H. Johnson, their local representative.

This price was higher by .42 than the price paid here on May 3 by F. C. Fahrendorf who purchased 904 bales from B. J. Baskin & Sons. The price paid by Mr. Fahrendorf was 8.22 and the total sum involved was \$39,335.

Raise in cotton prices, grain prices and commodities generally have resulted from the record administration of President Roosevelt in bringing about inflation. Ten cent cotton this fall is now a strong probability.

Legislator And Man Who Attacked Him

HON. GORDON BURNS

CHARLES ROESER

Both legislature and senate at Austin have been aroused by the attack of Charles Roeser, oil man, and two other men, on Gordon Burns, legislator from Huntsville, Texas. The legislative bodies are now conducting an investigation of the affair. A humorous angle on the case developed at the meeting of the North and East Texas Press association Saturday at Sulphur Springs when this body passed a resolution asking that the whole thing be turned over to the city court at Austin "before the investigation of a pure case of assault and battery costs the taxpayers \$50,000."

Little Victim

This is one of the few pictures ever taken of little Bernice Clayton, child victim of religious cult activities at Linden, Texas. The little crippled girl was subjected to 24 hours of incantations before she was finally strangled to death. Her slayers went on trial for murder Monday at Linden.

A full house enjoyed the Womens Minstrel given Friday evening at the Yoe High school auditorium under the auspices of circle number three of the Missionary Society of the Methodist church, Mrs. R. H. McIntosh and Mrs. Winnie Wittliff, directors.

The show was well presented and the cast was of the best talent in Cameron, coming from the churches with special numbers in solo work.

The endwomen: Mrs. Sam Brewer, Miss Ruby Smitherman, Mrs. Eber Flinn, Mrs. Giles Avriett, Mrs. Winnie Wittliff and Mrs. A. E. Schiller, and with Miss Dorothy Blaylock as interloctrix, kept the audience convulsed with laughter. Solo work was given by Mrs. Thad Epperson, Mrs. W. R. Hoover, Mrs. W. B. Levy, Mrs. A. J. Triggs, Mrs. G. E. Sutton and Mrs. A. J. Walzel. Readers were Mrs. E. C. Cole and Miss Bettye McCollum and mascots Little Lucille McDermott and Master Billie Cooper.

"Bells of Shannon" Friday, May 12 at K. of C. Auditorium

"The Bells of Shannon" will be given Friday evening May 12th at the K. C. Hall under the auspices of St. Rita's Circle of St. Monica's church at 8 p. m. Adult price will be 25c and children 10c.

The play is a romantic comedy in three acts by George Rosener. It is a modern Irish-American play in which thrills and humor are delightfully blended. Honora O'Day becomes the ward of the sheriff, the doctor, and the parish priest of an Arizona town.

The girl attracts the attention of a town gambler, who causes her to be suspected by her guardian. The untangling of the threads provides a gripping story with dramatic scenes.

Mr. and Mrs. M. C. Sapp spent Monday in San Antonio visiting their daughter, Miss Imogene Sapp who is a student in the Lady of the Lake College.

BEN MCCLELLAND BURIED AT MINERVA WEDNESDAY

Ben McClellan, 71, of Minerva, died Tuesday morning, May 9, 1933 at 9:30 o'clock at the Cameron Hospital where he had been under treatment by physicians for heart attack which occurred at his home on Monday.

His condition became critical at his home Monday and while little hope was held for recovery, he was brought to Cameron where conditions for treatment enabled physicians to give him better attention. The end came after a night of gradual weakening of the heart, an ailment he had been known to suffer from for several years.

The city received the death of Mr. McClellan with profound sorrow.

Funeral services were held Wednesday afternoon, May 10, 1933 at the family residence in Minerva, at 4 o'clock. Rev. C. G. Condry, pastor of the Methodist church at Minerva, conducted the services. BISHOP CONFIRMS IN CLASS AT CHURCH

Bishop C. E. Byrne of Galveston on last Sunday afternoon administered confirmation to a class of 109 young members of St. Monica's Catholic church. He was assisted in the ceremony by Monsignor Gleisner of Bryan, Rev. K. Kacer of Marek, Rev. J. Bauer of Westphalia, Rev. F. Praeger of Tours, Rev. C. O'Reilly of Temple, Rev. F. Urbanovsky of Caldwell and Rev. Geo. Apel, local pastor.

Confirmation is a simple but impressive rite of the church, and signifies strengthening in the faith. It is one of the seven sacraments of the church, and is administered after the faithful have partaken of the sacrament of Holy Eucharist.

The Bishop said he was impressed with the success of the parish in that the debt was reduced during the years of depression. He urged the faithful to remain steadfast to the teachings of Christ.

Bishop Byrne came to Cameron from Corn Hill where that morning he ordained to the priesthood Timothy Valenta, a brother of Dr. A. S. Valenta of this city. After the ceremony he left for Waco.

Making A "Breakfast Nook"

If you have a good sized kitchen in your home with more than ample space in which to work—any suggestion would be that you convert a part of it to arrangement of a breakfast nook. Or if there's a large pantry connected with the kitchen, have a part of the partition removed and turn that into a place that can be made quite cozy for "breakfast purposes."

In furnishing it my recommendations are:

Have built in seats and tables. Paint them attractively to harmonize with your kitchen's colors. And add new dainty curtains. If necessary to hang.

The "gadget" is a little machine that shows the difference between ordinary cord, used in other tires, and Super-twist cord, used in Goodyears. ... That difference is in the stretch and come-back—you can see how Super-twist cord stretches and comes back, how the cord in other tires loses its life and elasticity ... It takes about 3 minutes to tell the story—but as this customer said—"If every car owner could see that demonstration, there wouldn't be anything used but Goodyear Tires."

Get some genuine tablets of Bayer Aspirin and take them freely until you are entirely free from pain.

The tablets of Bayer manufacture cannot hurt you. They do not depress the heart. And they have been proven twice as effective as salicylates in relief of rheumatic pain at any stage.

Don't go through another season of suffering from rheumatism, or any neuritic pain. And never suffer needlessly from neuralgia, neuritis, or other conditions which Bayer Aspirin will relieve so surely and so swiftly.

Sunday May 14th Is Mothers Day

Which brings to mind these beautiful words Tennyson penned in the long ago:

"Happy he with such a Mother! Faith in Womankind beats with his blood, and trust in all things high comes easy to him"

"And though he trip and fall he shall not blind his soul with clay."

To think of Mother is a remembrance dear to all men. This bank joins the nation in tribute to the Mothers of men on Sunday, May 14.

Thousands of Women Have Taken Cardul on Their Mothers' Advice

It is an impressive fact that many women have said they learned of the value of Cardul from their mothers.

What stronger evidence of her confidence in a medicine could a mother have than that she advises her daughter to take it?

Cardul is given the credit for relieving so many cases of womanly suffering that it is widely and favorably known. Druggists, everywhere, sell it.

If you are weak, run-down, suffering monthly, take Cardul. Take it for a reasonable length of time and try it thoroughly. As your health improves, you will share the enthusiasm of thousands of women who have written to say: "Cardul helped me."

We understand that this is a part of a general statewide campaign to secure better observance of these laws. We are informed that our State as a whole has failed to come up to the standards required by our law and by the National Bureau of Census, Division of Statistics. of our Vital Statistics Registration Laws. All this information will be laid before us when we reconvene on the 2nd Monday in July, 1933. We hope that the reports will show that all our citizens charged with the duty to file reports have complied with the law. We have requested our District Attorney to mail a copy of this report to the officers of Milam County Medical Association and to all physicians, undertakers and Vital Statistic Registrars of our County.

A TONIC Laxative

CONSTIPATION, with the annoying symptoms that usually come with it, cuts down organic force and disturbs normal health and well-being. A thorough cleansing of the digestive tract is of great assistance in the removal of sickening constipation symptoms.

When excessive accumulated waste matter disturbs and strains the muscles of the large intestines, rendering them temporarily unable to perform their wave-like evacuating movements, Thedford's Black-Draught is useful in stimulating them to activity, which, again started, should continue regularly until some future disturbance interferes. In this way, Thedford's Black-Draught is one of the TONIC laxatives, tending, as it does, to establish a regular habit of evacuation.

M. Tubbs, Charles Hicks, C. M. Worcester, F. E. Jackson.

Miss Mary Ellen Jeter made the place cards and Mr. and Mrs. Francis Cox and Frank Newton furnished the music for the occasion.

Mr. McClellan was born on July

Like many of the Tennesseans he
came into Texas in the pioneer days.
He grew to mature years on the soil

THE TONSILS

By William J. Scholes

There is a certain large group of painful affections which are for the most part due to the circulation of toxic matter in the blood stream. These are variously designated as rheumatism, arthritis, synovitis, neuritis, neuralgia, myositis and so on. Fundamentally they are one and the same thing, their only difference being in name.

The toxins that cause these disorders may come from an infected tonsil, tooth, appendix, gall bladder or bowel. Naturally the tonsil is suspected first, because of its exposed position and its susceptibility to infection.

When the tonsil has been attacked a number of times its normal tissue elements are destroyed and replaced by fibrous (scar) tissue. The tonsil is now full of cracks and crevices that afford just the kind of environment germs like best. Here they multiply and manufacture their poisonous product which enters the blood and from there attacks parts that are predisposed to it. Such tonsils should be removed, provided there is no doubt of their guilt.

A tonsil is not necessarily diseased because it is enlarged. Some people have larger tonsils than others, just

"Will Tell Court"

Mrs. Lula V. Gage of Cleburne, Texas, said she "will tell it to the court," when neighbors found her husband shot six times, sitting in a chair, his glasses still on, his newspaper dropped to the floor. She has been charged with murder and is at liberty under bond.

as some have larger feet than others. It can be said that a tonsil is diseased only when its framework has become fibrous and its crypts filled with pus.

The removal of the tonsils in children is comparatively simple procedure. In adults it is a serious proposition and many there are who have lost their life as a result of hemorrhage following a tonsil operation. The tonsillar artery grows out of all proportion to the other vessels of the throat, and when it is severed an uncontrollable hemorrhage is very apt to follow.

The tonsil should be removed in its entirety—not merely clipped. Unless it is completely resected, it is likely to grow again.

I know cases where removal of the tonsils was followed by brilliant results. But I know twice as many that were purposeless and fruitless. Which means that before the tonsils are removed in any given case, one should be certain beyond a reasonable doubt that they are guilty.

Dr. Taylor left Tuesday for Fort Worth to attend the Medical Association which is in session Wednesday and Thursday. Dr. Taylor goes as a delegate from Milam county.

After Hail and Rain Storm Played Havoc

Hail and rain in gigantic proportions, which hit Dallas and surrounding territory last week, left hundreds homeless, killed three and injured many more. More than \$2,000,000 in property damage was done in Dallas alone. Above R. F. C. workers gather the meagre belongings of tent house dwellers in the lowlands. The immense amount of water swept everything before it. Below are three little girls, homeless, but welcoming the sand man just the same on a cot in a relief station.

CHAMBER OF COMMERCE MEMBERSHIP CANVAS

Five membership committees of the Chamber of Commerce met at the Legion Club Room where lunch was served at noon Tuesday. After the lunch President L. Van Perkins appointed the five membership committees headed by the following members: W. R. Hoover, E. C. Cole, August Horstmann, M. G. Manning and John Young. The committee divided the town up into sections and set out a membership drive that will bring into co-operation with the Chamber of Commerce every business concern, large and small, and every professional man in Cameron.

An extensive program for the betterment of Cameron and Milam county has been mapped out by the Chamber of Commerce and it is hoped that all citizens of Cameron will lend their undivided support in putting over this program. The membership committees will try and see every one concerned but some will be missed, and it is hoped all will

show a spirit of co-operation and go to the office of the Chamber of Commerce and affiliate their organizations. "We are working for the common good and advancement of Cameron and Milam county," said Mr. Perkins, "and if we have the full cooperation of our citizenship we will make good progress. If we do not have this cooperation we can not expect the good things that our town deserves."

Nat Wofford of Port Arthur arrived Tuesday for a visit with his mother, Mrs. Hallie Jones Wofford.

Got Over Weak, Painful Condition By Taking Cardui

"I was weak and run-down and suffered quite a bit with pains in my side," writes Mrs. Nick Baranco, of Beaumont, Texas. "I was nervous. I did not rest well at night, and my appetite was poor. My mother had used Cardui with beneficial result, so I decided to take it. I surely am glad I did, for it stopped the pain in my side and built up my general health. I took seven bottles in all."

For over 50 years, Cardui has been helping women just as this Texas lady describes above.

A VARNISH

THAT CHALLENGES ROUGH TREATMENT

LOWE BROTHERS NEPTUNITE FLOOR VARNISH (Quick-drying) actually challenges rough treatment. And here are the reasons why:

It is so elastic that the pounding of countless foot-steps never causes it to break. And it is so tough

that it even resists the scraping of moving furniture.

Nor is that all. Hot or cold water will not affect NEPTUNITE FLOOR VARNISH (Quick-drying) nor mar its beauty in any way. It flows on perfectly and levels out smoothly. Be sure to see us before you refinish.

Fruit Drippings

Crops suffered from cold damage. The cold weather in March appeared at the time to do severe damage to peach and plum crops in Texas, yet many sections will produce a fifty per cent crop. The Elberta variety which blooms early and over a very short period seemed to suffer most. The varieties that bear the most regular crops are the late bloomers, such as early Wheeler, Mamie Ross, Carman and Indian Cling. Other varieties that bear regular crops, such as Mayflower, Arp Beauty, Frank, Hiley and Smith, do not open all of their blossoms at once. These varieties will open their fruit buds over a period of ten to twenty days. This type of blooming eliminates a part of the danger of loss of the crop. If 12 per cent of the fruit buds survive cold, natural shedding, etc., a good crop can be expected.

rot and scab. This is the month to make lime-sulphur and use it. In preparing this spray at home, mix together as a dust 8 pounds finely ground sulphur and 8 pounds hydrated lime. Pour 5 to 10 gallons hot boiling water over the sulphur and lime mixture and stir for ten minutes. If it is still lumpy and unmixed build a small fire around the wash-pot and boil the mixture until red streaks begin to appear. Pull the fire back from around the pot and strain the liquid into the spray tank. Add enough water to make a total of 50 gallons of spray material.

How To Make Peaches Get Big.

Where the orchard is growing in poor sandy soil and the rainfall is over 30 inches, it will increase the size of the fruit to fertilize the trees at this time. Use 1-2 to 1 pound of a 4-8-4 or 6-12-6 commercial fertilizer for each inch in diameter of the body of the tree. The last of this month and during June the fruit buds for next year's fruit crop will be developing. With a crop of fruit on the trees, the farsighted

owner provides plenty of plant food and cultivation.

Some philosopher's much quoted statement, "As the twig is bent, so shall be the tree." Those trees planted last winter should be shaped now. If the young tree is lopsided and the branches have not come out uniformly on the body, it will be best to select the best single shoot of new growth and cut off the entire tap to the point where the good sprout is attached to the body. Pinch the ends out of the other sprouts below the one selected to form the head of the tree. Trees built by this method have perfect tops and no bad crotchets.

VOL. NO. 72

Our Town

By J. B. White

Milam County's Board of Education dealing entirely with the welfare of rural education has met defeat in an effort to enlist the support of local legislative representatives for the Kayton Sales Tax Bill at Austin. The campaign which took the form of petitions circulated without newspaper publicity, was not generally known to be in progress among urban dwellers. As the case stands to-day the rural people find their representatives, both House and Senate, deciding in favor of the cities and towns.

Milam County's appeal in behalf of rural education is more than the representation of the average county. It's population is rural. It's people live close to the soil. Their claims lie in the heart of fields and there by them rears the structure of our best American traditions. Urbanizing the country through neglect of the rural sections is the great American tragedy.

There are 60 elementary schools in Milam County for white children offering work in the seventh grades, to use the words of Mrs. Kathryn Robbins, county superintendent. Only two counties in Texas exceed Milam county in rural population. They are Harrison and Navarro Counties, and more scholastics are under the supervision of the Milam County Superintendent than any county in Texas, except the two above mentioned. Not detracting from the valiant and comprehensive work of the superintendent, it should be said in the interest of fact, that not as many will graduate as in many other counties.

Many of the students of the lesser rural schools of Milam County do not obtain even an elementary education. Poor equipment, shortness of the term, frequent change of teachers and the ever increasing tendency to stifle through neglect the structure of rural education, are lamentable obstacles which the child cannot overcome and many, discouraged, never reach the seventh grade.

Support of tax measures for public education by those engaged in administration both as executives and teachers, has led some to say the demand is selfish and has become a lobby. That is unfortunate. It is regrettable that the cause of education cannot be solved permanently and well upon the claims of children whose rights are more vital to this republic than the success or failure of politicians, whose ears are always turned in the direction of the largest vote.

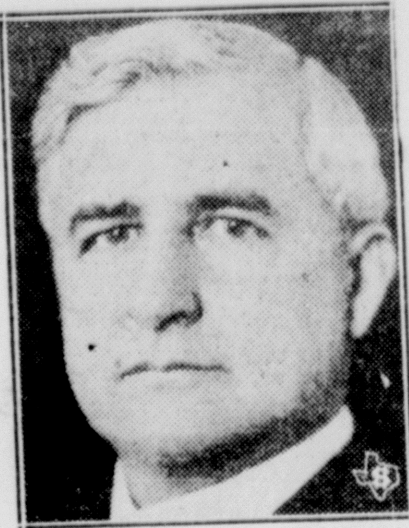

More to be desired than anything is the elimination of extravagance in government and the use of sound public revenues for sound and lasting purposes. The cause of education has the strongest claim upon government.

Men who seek to lead are often so limited in their knowledge they do great harm. Few people have read the provisions of the Kayton sales tax bill. Few people read anything at all and the tendency to act upon public questions usually has resulted in listening to so-called leadership. Leadership is good or bad in proportion to its record of service to the masses. Substantially no law in recent years has been enacted except in the interest of some group or against another group. The sales tax bill was defeated by the retail merchants of Texas. It might curtail buying and therefore should be defeated. The land owner has been strangely indifferent to this legislation.

Passage of the constitutional amendment to exempt homes from taxation is proof of our selfishness. It is a bad law and a dangerous tendency. The home owners voted for it because it absolved them from support of the state government. Millions in Texas live in luxury and partake of the privileges of the government, rear and educate families and never share a penny in the expenses of the government that makes it possible for them to live here. The system must be changed.

All Texas should be proud of the fact that Uncle Sam called upon the Lone Star State to furnish a man to head the Reconstruction Finance Corporation, the largest financial organization in the world. BUNT MANNING WINS SUNDAY GOLF SHOW

Local Golfers had a tournament to establish their handicaps for the coming Central Texas tournaments. Bunt Manning shot a brilliant 66 two par to top first prize. He is shooting the most consistent game at present and his chances for the season looks as if he will bring some loving cups home. Bob Terry and Bassett Watson tied for second with scores of 72. A flip of the coin placed Bob Terry second. Reed Rogers was fourth with 74. Golf balls were given as prizes.

The first Central Texas Golf Tournament will be held Monday, May 22nd at Georgetown. Among those going are: Reed Rogers, Bud Roberts, Bassett Watson, Bunt Manning, A. J. Triggs, W. O. Triggs, George Childress, Frank Stewart, Frank Cheeves, Franklin Dusek and probably others.

The Cameron Club is putting on their Central Texas Tournament about the middle of June.

COTTON BRINGS 9.01 CAMERON ON MAY 12

Four hundred bales of cotton were sold here last Friday for a price of 9.01 per pound. The cotton was bought by D. H. Slaughter and was transferred to George V. Launey & Company of Dallas.

This was the highest price paid for cotton since September, 1932, it was said.

Indications are that the price levels will be much higher this year, due to the inflation program of the administration in Washington.

Mrs. Rudolph Kosel of Temple spent the week end here with her niece, Miss Minnie Wohleb.

Rev. O. C. Acrey, pastor of the Presbyterian church, was principal speaker of the evening, with a number of impromptu speeches from those present. Mayor C. C. Smith held a short session of the City Council to show the work of the body, which was much enjoyed by all. At this time the council voted to raise the salary of Mr. Cox, the band master, in recognition of the splendid work that he is doing with the band. Mr. Cox presented the silver cup the band had won at the state meeting in Mexico, to the City of Cameron, to be their property.

At the close of the program they repaired to the dining room of the school where all were served with sandwiches and punch.

NEW DEAL FEATURES SCHOOL BANQUET HERE

The spirit of the "New Deal" permeated the program of the annual Junior-Senior Banquet served in the basement of the Methodist church last Friday evening.

The tables were beautifully arranged with decorations of spring flowers and candles featuring the colors of the two classes.

One hundred ten students and teachers carried out the announced policy of inflation with a menu consisting of fruit cocktail, the main course of pressed chicken, parsley potatoes, pickled beets, buttered English peas, hot rolls, ice cream, cake and iced tea.

AVERAGE GAS COST IS LOW SAYS COMPANY

Now that the house heating season is over, a survey by the Gulf Refining Company reveals that customers pay more than half of their entire year's gas bill in only four months in the year. The survey of gas customer's accounts in this vicinity, according to Joe E. Furneaux, local manager of the Community Natural Gas Co., further shows that between 60 and 80 per cent of the customers use so little gas during the long hot period that they fail to pay for the cost of service rendered during these months.

The average amount received by the company in 1932 was \$46.63 per customer for a year's service, or less than 13 cents a day per customer. This is arrived at by dividing the total revenue by the total number of customers. This average bill for each month in the year is as follows: January \$6.73; February \$6.09; March \$5.63; April \$4.26; May \$2.54; June \$2.15; July \$1.94; August \$1.88; September \$1.98; October \$2.66; November \$4.39; December \$6.38.

"It can be seen from the above figures that \$24.43, or more than half of the year's total bill is paid in four months," said Mr. Furneaux. "Nearly three-fourths of the average (See GAS COST on page 4)

New Refining Process Gives Gulf Superior Lubricating Oils

Here is one of the most remarkable stories, as well as one that is of special interest to all of the people of Texas. Three years ago the Gulf Refining Company engineers made a discovery of revolutionary importance to the oil industry. A discovery so advanced, so significant that it made possible a finer, longer-lived motor oil than the industry had ever seen.

This discovery was an utterly new refining process—the now-famous Alchior Process, exclusive with Gulf. The oil made by it is called Gulfpride.

At first it was possible to produce only limited quantities of this re- (See GULF on page 4)

Mr. Molyneux is one of the South's outstanding authorities on international trade and its relation to the Southwest, having addressed numerous national audiences on the subject recently, including the National Foreign Trade Convention at Pittsburgh, Pa., (April 26), American Cotton Shippers Association (April 28). He is to deliver the principal address at the Southwest Foreign Trade Conference at Galveston May 12. In the meantime he is sharing honors with the Governor of Kansas on a speaking tour of that State covering eight cities.

Boy Scouts

TROOP NO. 52

J. A. Lindle, Scoutmaster

Troop No. 52 met Thursday night May 11 at the K. of C. Hall. The meeting was opened by the assistant scoutmaster, Shorty Matula, who designated scout Frank Richter to lead the troop in the scout oath.

After the business ceremonies were over a brief business session was held, during which plans for an over-night hike were advanced.

The patrols, X, Fox and Longhorns, then departed into their dens to discuss plans for future projects benefitting the troop and to study some of the phases of scouting to be brought forth in the scouting section of this meeting. Some of the boys were told to watch out for the Connie A's. Saturday night, The Connie A is a secret organization of Scouts which gets the scout out of his bed at midnight and no man knows what the Connie A's do to a scout when they initiate him into their vastly secret organization.

Soon the boys had gathered around the camp-fire or rather around the scoutmaster's desk. When that troop formation is secured, a picture is delineated in one's imagination, suggestive of a tribe of Sioux Indians gathered around their campfire smoking the pipe of peace and discussing current affairs with their "Big Chief." The scouts of Troop No. 52 as individuals look up to their scoutmaster to lead them just as the Indian warriors of the Sioux might have looked

up to their chief long ago. The following business consisted in taking a vote to find out where No. 52 should go for the over-night hike. The vote had been cast in favor of Wayside, but this time the supporters of Wayside met defeat and Troop 52 chose to go to the pump house for camp.

In the game section of the meeting the boys chose sides and played an exciting game with the volley ball which lasted until the end of the meeting. The meeting was closed by everyone singing "The Eyes of the Boy Scouts."

On Saturday, May 13, some of the Scouts hiked out to the pump house to make preparations for the camp. They were joined later by the rest of the boys and scoutmaster. After

enjoying a hearty supper the boys were entertained by the weird stories of Ted Matula and his horrible murder mysteries which were climaxed by C. W. Gjedde's subtle, fascinating story of "Hairy Bill" and his fight against a horde of savage jungle monsters. Everyone went to bed about ten o'clock and who were not murdered or eaten by huge jungle monsters arose early the next morning and departed for town.

Troop 52 did not do so well in the City Softball league the first half, but as we have been notified that there would be both a class A and a class B rank in the second half of the race, we expect to do much better than before. Our present standing: Played 10, won 3, lost 7, percentage 300.

Troop No. 52 went on a hike to their regular camping place in 'thick pasture' last Thursday. Due to the absence of the scoutmaster, the hike was in charge of the Assistant Scoutmaster, Shorty Matula. The hike ended earlier than usual in order that the harmonica players might go to the assistant scoutmaster's home for practice.

Troop 52 entertained their friends with a 42 party at the K. C. Hall Monday evening. Lemonade and cake were served and an entertainment was given by scouts "Shorty" Matula, Ted Matula, George Matocha, Jimmy Stanislaw and Paul Michalka. A few well rendered piano selections were given by Max McLerran of Marlow.

A great thing has occurred amongst us. We have made a complete turn-around, and at last America's face is toward the future. Three years---1929 to 1932---we Americans looked backward. All our old financial and political machinery was geared to pull us out of the depression by the same door through which we entered. We thought it simply a case of going back the way we came. It failed. We now realize that the way out is forward---through it.

Thanks for that belongs to President Roosevelt. Inauguration Day he turned the Ship of State around. Having observed the failure of sincere efforts to haul us back the way we came, he designed a new method---new political and financial machinery---to pull us out the way we are going---forward. He is clearing international obstacles out of the way; he does not stand in awe of tariffs. The people begin to feel that he does not take advice from the "interests"; that he has courage and loyalty to work for one supreme interest only---the welfare of the American people. That is a big achievement for two months in office.

And now we all look to what is coming; we grow less and less concerned with what is behind. We are looking for a hand-hold on the haul rope. Every man wants to do what he can, and all he can.

The best thing I can do for the Country is to create industry by building good motor cars. If I knew anything better to do, I would do it. Industry must be my contribution. Motor cars must face ahead to the future, like everything else. They are so much a part of the Nation's daily life that if they lag behind they hold the Country back.

OUR TOWN

(Continued from page 1)

Milam County show that there are 8000 tax payers on the rolls out of a population of 40,000 people. Three thousand of this number pay personal taxes, leaving 5000 who pay substantially 95 per cent of the State ad valorem debt each year. It means that only one in eight by average pay the State government or local government. This condition exists throughout Texas. Our present system of tax gathering was laid down when Texas grew long horn cattle and boasted a great public domain, undeveloped. Since that time structures of earning wealth both in invested opportunities as well as salaries have grown up but have never been brought under a system of support to the government.

In 1932, the records of McClellan show Milam County owed the State of Texas \$109,000 based upon purely ad valorem taxes exclusive of auto license fees and other taxes. Only one in eight people by average paid this debt.

In 1932 the commercial retail sales volume for Milam County, according to the Texas Almanac, was \$8,460,000. Based upon the committee substitute bill refused admission to the House by the committee of which Representative James is a member, making a one and a half per cent levy on sales, Milam county's debt to the State in 1932 would have been \$12,600 in strict ad valorem taxes as against \$109,000 under the present system. The burden of the tax would be born in centers of great population where the commercial sales volume is large.

These facts are submitted on their merits. They defy contradiction. It's safe to say that substantially every merchant in Milam county could have absorbed the sales tax in 1932 and paid less than was his due the State on ad valorem levy. The merchant cannot and should not bear the tax. He is paying the present annual debt, so is the land owner. He has the burden. Millions tell him to keep it. We are tax free. Don't put any burden on us, it might hurt your business.

Meanwhile the sales tax remains the only serious effort ever made to relieve farmers, land owners and property owners of the exclusive burden of the cost of government. The unselfish attitude shown by those who pay in desiring to continue to bear it without requiring others to share it, remains an unexplained mystery.

Helped By Cardui

Here's the true story of how Cardui helped Mrs. H. E. Dunaway, of McComb, Miss., as written by herself:

"I was sick and rather discouraged. I was so weak and thin, I was not able to do my work as it should be done. This made me fret a good deal, and did not help my condition.

"I had pains across my back and lower part of my body. My nights were spent in rolling from one side of the bed to the other, hoping I would soon go to sleep. Then when morning would come, I would be just as tired as when I went to bed. A neighbor, seeing how badly I felt, told me to try Cardui. After I had taken one bottle, I was much better. I kept on taking Cardui, and I was stronger and slept much better at night."

Cheese Making on Texas Farms Growing

American cheese has become a farm-manufactured product on many Texas farms these days as shown by this exhibit of home-made cheese at the Second Annual Dairy Products Show at Albany, April 14 and 15. Brought in by 61 home demonstration club women of Stephens, Knox, Baylor, Young and Shackelford counties, they were judged by H. L. Wilson, United States Department of Agriculture (left), and J. L. Thomas, dairy specialist, Texas A. and M. College Extension Service (right). "The poorest quality of cheese this year was better than the best last year," Mr. Wilson told the exhibitors. "You people in Texas have started the manufacture of dairy products as it was begun in New York and Wisconsin years ago, but you are making strides much more rapidly."

FRANK SEIDLER, 72, IS BURIED IN CAMERON

Frank Seidler, 72, pioneer resident of Milam County, died suddenly at his home in Cameron from heart attack Wednesday night May 3, 1933 at 10:30 o'clock.

His condition of health had been abnormal for several years but there had been no indication of the critical development that took the pioneer's life in the early evening of Wednesday. News of his death came as a shock to friends and the populace generally.

Mr. Seidler was a native of Austria. He came to America when a young man and had lived through many stirring periods in our history. His was a sturdy type of character and early in life he profited by the advantages of his adopted country and enjoyed the distinction of both a good business man and citizen.

He is survived by his Step Mother and a number of nieces and nephews. Funeral services were held Friday morning at St. Monica's church with the pastor, Rev. Geo. Apel reading the burial mass. Interment was made in the Catholic cemetery.

Pall bearers were: A. J. Matocha, Ben Boedeker, Joe Michalka, Henry Dakel, John Witteck and Rudolph Guzman.

CARD OF THANKS

We desire to express our sincere thanks to those of our neighbors and friends who came to us in our time of greatest sorrow over the death of our dear relative, Frank Seidler. We are grateful for your words of sympathy and deeds of kindness that helped us to bear our grief. We thank those who gave flowers and all who in any way assisted us.

Mrs. Mary Seidler, Alfred Boedeker, Mr. and Mrs. August Boedeker and family, Mr. and Mrs. Frank Boedeker and family, Hugo Boedeker, Mr. and Mrs. John Jistel and family, Mr. and Mrs. Richard Lenhart and family, Mr. and Mrs. Rudolph Hesch and family, Mr. and Mrs. Edwin Lenhart and family, Mr. and Mrs. Jewel Morgan and family, Emil Boedeker and family.

Penn Wolf Tells How To Trap the "Wise" Rat of the Pack

A rat will ALL-Ways follow the same path or trail to and from their feeding place and will always run along a wall or fence instead of going a direct course. If there happens to be a box or barrel or board sitting close to or leaning against the wall or fence as the case may be, the rat will always run behind the object.

Get a steel trap, one that will be sure to hold the rat, set it between the box, barrel or board and the wall as the case may be, have the box close enough to the wall so the rat will have to cross the trap. Now take a piece of soft cloth, something like a worn out house apron, the more soiled and dirty it is the better, spread this over the trap so it is entirely covered, have your trap set light so it will spring easily. If your rat is running that way you will catch him NINE times out of TEN. DO NOT USE BAIT of any kind as they soon get wise that there is a trap there. Have more than one trap fixed this way and move them now and then. BE VERY SURE to keep your traps covered with an old soft dirty cloth. If you will follow this plan closely you can catch the oldest and wisest rat that ever run.

He pointed out that if gas bills were paid equally each month, such as bills for rent and other necessities in which the amount varies only slightly, it would be easier to see that the cost of dependable gas service is only a few cents a day.

I'm buying my tires NOW!

Right now Goodyear is concentrating on two main lines of tires . . . This saves money for the factory that builds them — for the dealer who sells them — and for the car owner who buys them . . . If you want to know how real these savings are — and how much they mean to you — just check up on today's price of the size you need, and at the same time take a careful look at the finest quality that ever honored the Goodyear name . . . This stepping up of quality, this stepping down of price leads the way to a better deal for everyone — and that's what we all want now . . . Best of all — it means that everyone can afford new Goodyear Tires, especially if you buy now while prices are still low.

By DR. WILLIAM J. SCHOLLS

History records no more determined and successful campaign of extermination than that waged against the well-known house-fly. And it has been amply justified. Flies have been responsible for the spread of more disease than any other single vehicle.

A Menace To Health

Whatever theory for their existence may be correct, the fact remains that they are a menace to public health, and should be exterminated. If the future develops that they were a blessing in disguise, as destroyers of harmful micro-organisms, we can in turn find other ways to dispose of these forms of life.

The first step in the process of meeting the fly menace is to keep them out of the house by screening all windows and doors. Screens should be kept up from May to November. Next in order is disposing of those that do get into the house. The most recent instrument devised for this purpose is the "swatter" with which we are all familiar. Fly swatters are inexpensive, in fact, many merchants give them away as advertising media. All members of the household should be members of a vigilance committee and co-operate in the war against the intruders. Do not leave it all to mother.

The more antique methods of extermination are poison fly paper and the well known tanglefoot. Both are useful, provided they are kept where the baby will not drink the one or father sit on the other. Poison paper has the disadvantage of causing the corpses of flies to be scattered throughout the house.

Too many people, going on the theory that "familiarity breeds contempt," regard the house-fly as a more or less harmless insect. In so doing they are aiding and abetting an enemy of humankind who has taken an enormous toll of life. It is usually the apparently harmless factors that are the most dangerous.

Make one of your mottoes for this summer, "Swat the fly!" remembering that every time you dispose of one you are not destroying just that one, but three million possible descendants.

Window Boxes
To be attractive, window boxes must be planned like anything else. Care must be given as to the exposure and coloring.

Flower boxes may be started any time now.

There are two types of flower boxes—namely, flowering and foliage. There is little trouble in planning or caring for the flowering variety, but in a north exposure or in a shady spot do not attempt it. Stick strictly to the foliage. Here is a list of plants for the foliage box:

Vinca Vine.
Wandering Jew.
English Ivy.
Rubber Plant.
Pandora.
Dusty Miller.
Begonia.

COOKING HINTS

Spinach With Cheese Sauce
2 tablespoons of butter.
2 tablespoons of flour.
1 pint of milk (2 cups).

1 cup of crumbled cheese.
1 can spinach.
Hard boiled eggs.
Method: Make a thick cream sauce blending the butter, flour and milk. Add the cheese and stir over a slow fire until melted. Heat and season the spinach. Put in a dish. Pour over the cheese sauce and garnish with slices of hard boiled eggs.

How To Measure Butter

Sometimes in the country, or when our measuring cups have disappeared to the children's sand pile, it will be well to know how to measure butter without our cup. Hence this suggestion.

1 pound of butter equals 2 cups.
1-4 pound package of butter equals 1-2 cup.
4 tablespoons of butter equals 1-2 cup of butter.

BAKING HINTS

Grape Juice Pie

1-2 cup of grape juice.
1 1-2 tablespoons of corn starch.
1-2 cup of sugar.
1 tablespoon of butter.
Method: Blend butter and sugar. Add the corn starch. Mix with a little grape juice and stir to a smooth paste. Heat grape juice in double boiler. Stir paste into the heated grape juice and cook until thick, smooth and clear. Heap in pie shells. Top with whipped cream. This is pretty for luncheon where lavender is the color scheme.

A Delightful Cheese Dish

2 eggs.
1-2 cup of stale bread.
1 1-2 teaspoon of salt.
Little pepper.
1-4 pound American cheese mild.
1 pint milk (2 cups).
Method: Beat the eggs. Add the bread broken up, salt, pepper and grated cheese. Scald milk and pour over all. Bake in casserole or custard cups and cook the same as baked custard. Cook 1 hour. Test by inserting silver knife and when it comes out clean, cheese is done.

**L. W. Kemp Named
By Pat Neff As a
Baylor Honor Guest**

A special honor has been offered to L. W. (Wiltz) Kemp of Houston by Pat M. Neff, president of the Baylor University of Waco. Mr. Kemp was born and reared in Cameron, is a brother of Judge Jeff T. Kemp, and is a graduate of Cameron high school. Mr. Neff's invitation letter follows:

"Dear Mr. Kemp:

As you know, this is my first year to serve as president of Baylor University. I have asked permission of, and have been granted by, the Board of Trustees of the institution to name for each Commencement two citizens of the state to be known as the Honor Guests of the University on Graduation Day. I asked this privilege of the trustees in order that I might,

now and then, in this way give public recognition to the unselfish services rendered by patriotic and unheralded heroes.

In looking around over the State for the two to be named by me as Honor Guests for our coming Commencement Exercises May 31, my mind naturally recalled the worthwhile things that you have been doing over the State during recent years, and I covet the opportunity of naming you as one of the two Honor Guests for our Graduation Day, as above stated.

There will be nothing for you to do in connection with the occasion except to wear an academic cap and gown, march in with the procession of graduates, trustees, and invited dignitaries, sit on the platform and be presented to the audience as an Honor Guest of the University in recognition of services rendered. You will be the guest of the University during your stay in the city.

If you are willing to grant this privilege to the University, and to me, personally, I shall be glad to have you so advise me at your earliest convenience.

Yours sincerely,
(Signed) Pat M. Neff.

Detectives believe that Nick Raspasky of Dallas, Greek cafe owner, was taken for a ride and murdered to prevent him from testifying in a million-dollar litigation over the will of the late C. C. Recently he had been the central figure in a shooting and bombing at his cafe.

**WOMEN: watch your
BOWELS**

What should women do to keep their bowels moving freely? A doctor should know the answer. That is why pure Syrup Pepsin is so good for women. It just suits their delicate organism. It is the prescription of an old family doctor who has treated thousands of women patients, and who made a special study of bowel troubles.

It is fine for children, too. They love its taste. Let them have it every time their tongues are coated or their skin is sallow. Dr. Caldwell's Syrup Pepsin is made from fresh laxative herbs, pure pepsin and other harmless ingredients.

When you've a sick headache, can't eat, are bilious or sluggish; and at the times when you are most apt to be constipated, take a little of this famous prescription (all drug stores keep it ready in big bottles), and you'll know why Dr. Caldwell's Syrup Pepsin is the favorite laxative of over a million women!

**CAMERON SLUGGERS IN
WIN OVER DAVILLA**

The Cameron Sluggers, under the leadership of Bill Balhorn, continued their winning brand of baseball Sunday afternoon when they defeated the Davilla team twenty to seven.

Jack Reimer was on the mound for the Sluggers and in the first inning he struck out the first three men to face him. In their half of the first inning the Sluggers ran in four runs on two hits and three walks. Melton was on the mound for Davilla and after the first inning it was a very evident fact he could not hope to hold the hard hitting Sluggers in check.

In the second inning Davilla ran in one score on a two base hit and an infield error. Cameron came back in the second to score two more runs on a base on balls and a home run. P. Sharp relieved Melton after the third inning in the box for the Davilla Dandies.

After pitching to three batters in the seventh inning with none out Jack Reimer relinquished the pitching assignment to Reese who finished the game for the Sluggers.

Extra base hits were numerous and the high wind was accountable no doubt in part for the lengthy blows. There were six home runs, three three-baggers and five doubles mixed up in the total of thirty safe hits during the game.

The game at Davilla was the sixth victory in as many games to be won by the Sluggers. The games that are played in the Milam County League are counted in the Temple Telegram cup race. This keeps the Sluggers at the top of the percentage columns in both the Milam and the Temple cup races.

The next game on hand for the Sluggers will be Sunday afternoon, May 21st, when the Sluggers play at Gay Hill.

DIZZINESS

relieved by Black-Draught

"I decided to take Thedford's Black-Draught, as I had been having bilious spells," writes Mr. Charles E. Stevens, of Columbus, Ind. "When I get bilious, I feel sleepy and tired and do not feel like doing my work. It is hard to tell how I feel, but I do not feel good. I get awfully dizzy. I know then that I had better take something. After I found how good Black-Draught is, that is what I have used. I guess it rids me of the bile, for I feel better—don't feel like I am dropping off to sleep every time I sit down. That, to me, is a very bad feeling."

Now you can get Black-Draught in the form of a SYRUP, for CHILDREN.
